Together

Your mission:

- Be the expert in the project team for commissioning of complete systems or components on new or modified production assets in defined investment projects.
- Have a holistic understanding about the project scope and thus define and improve binding commissioning structures and progress tracking tools.
- Implement the right commissioning procedures and start-up strategy, considering work safety, project timeline and operational requirements.
- Work closely together with external suppliers, contractors, and all project professions on site, assign tasks and lead meetings with them.
- Supervise and provide hands-on practical support during all commissioning phases, including training for our maintenance and operative staff.
- Support key stakeholders in our business segments with your commissioning expertise on their different projects.

Your profile:

- Mechanical, electric, or industrial engineering (high school / university)
- 3+ years of professional experience, preferably in Pulp & Paper industry, or related industry
- Team player, business orientation and assertive personality
- Advanced IT and analytical skills
- The experience to perform under time pressure
- Flexibility to relocate temporarily on work assignment (for several months, up to 2 years)

Our offer:

- An inspiring position in our Group CAPEX department
- Start: immediate start date possible
- Location: Group office Vienna – Marxergasse 4A, 1030 Vienna
- Extent: full-time, 38 hours/week, all-in unlimited contract
- We offer a compensation package starting at € 47,000.00 gross/year on a full-time basis (38 hours/week), with the opportunity of overpayment depending on your experience, skills, and qualification.
